

DUCTILE IRON SERVICE VALVE

FEATURES:

- It has a polyethylene end for connection to the network.
- Nominal pressure: PN16
- Body marking that enables easy identification
- Its design avoids possible leak points
- Square handle with an arrow which indicates the position of the ball

MATERIALS:

- **Body and square handle:** Ductile iron EN-GJS-400-15 (equivalent to GGG 40) according to UNE-EN 1563
- **O-Rings:** EPDM according to UNE-EN 681-1
- **Stem, ball, bolts and sleeve:** Stainless steel AISI 304 according to UNE-EN 10088-1
- **Polyethylene part:** PE 100 PN16 according to UNE-EN 12201-2
- **Seats:** PTFE according to UNE-EN ISO 13000-1

DIMENSIONS:

REF	DN	THREADED PART	PE
1541	20	1"	25
1542	30	1 ¼"	40
1543	40	1 ½"	50
1544	50	2"	63
1545	65	2 ½"	75
